

TIRIK Coin Whitepaper

Version 1.0 - May 2025

1. Introduction

TIRIK Coin is a decentralized digital currency built on the Solana blockchain. It is designed to enable fast, low-cost, and secure digital transactions for individuals, communities, and businesses. With 100% of its supply in circulation from day one, TIRIK prioritizes transparency, fairness, and full decentralization.

2. Vision & Mission

Vision:

To foster a decentralized, accessible financial ecosystem for global communities, especially in underbanked regions.

Mission:

To provide a simple, scalable, and community-driven digital asset that can power peer-to-peer payments, remittances, and e-commerce in a fast and reliable way.

3. Blockchain & Technology

- Blockchain: Solana
- Consensus: Proof of History (PoH) + Proof of Stake (PoS)
- Transactions per Second: ~65,000
- Average Fee: Less than \$0.001
- Smart Contracts: Supported via Solana Programs (Rust-based)

4. Tokenomics

- Token Name: TIRIK Coin
- Symbol: TIRIK

- Total Supply: 1,000,000,000 TIRIK
- Decimals: 9
- Initial Circulating Supply: 1,000,000,000 (100%)
- Blockchain: Solana

All tokens are publicly available from launch with no locked funds, no private sales, and no vesting periods. TIRIK is designed to be fully open and fair.

5. Use Cases

- Peer-to-peer transactions
- Remittances across borders
- Online commerce payments
- Community rewards and tipping
- Integration into decentralized apps (dApps)

6. Roadmap

Phase: Launch (Q2 2025) - Token deployment, website, whitepaper release

Phase: Adoption (Q3 2025) - DEX listings (Orca, Raydium), community building

Phase: Expansion (Q4 2025) - Wallet integrations, merchant partnerships

Phase: Utility (Q1 2026) - Staking system, governance proposals

Phase: Ecosystem Growth (Q2 2026) - dApp partnerships, cross-chain bridge

7. Security

TIRIK Coin's contract is planned to be audited by an independent firm to ensure it is safe and transparent for all participants. All minting is done via Solana's official SPL Token standards.

8. Governance

TIRIK will evolve into a community-governed project where token holders can vote on upgrades, partnerships, and ecosystem decisions through on-chain governance mechanisms.

9. Legal Disclaimer

TIRIK Coin is not a security or financial investment. It is a decentralized utility token and should be used in accordance with local laws and regulations. Users are solely responsible for ensuring compliance.

10. Conclusion

TIRIK Coin combines Solana's powerful infrastructure with a fair and open tokenomics model to deliver a truly community-first digital currency. With a transparent launch, full supply in circulation, and strong community vision, TIRIK is poised to become a widely adopted utility token in the decentralized future.
